

ROYAL AUTOMOBILE CLUB OF W.A. CARTOGRAPHIC SECTION

The RAC conducted road surveys, including the Canning Stock route and roads between the Goldfields and Alice Springs and between Port Hedland and Darwin. Maps, including tourist maps with information gathered from various sources, including local government authorities, tourist bureaus and community and business organisations were produced.

This collection includes archived working copies of maps with annotations, templates and final edition maps, including tourist maps with local area information. Photographs, of the routes and tourist areas, are also included in the collection.

The RAC cartography department was disbanded in 2009.
