DISTRICT ROAD BOARDS.

Roads.—The roads of the State, outside of Municipalities, are under the charge of District Road Boards, who have powers under the "Roads Act" similar to those given to Local Government Bodies in the other States. A good number of roads, however, on Goldfields where water supply is a principal factor, are constructed and maintained by Mines Water Supply Dept. The main trunk routes, of which the water supply is principal and ruling factor—passing through centre of State—are constructed and maintained at considerable cost, owing to their great length and remoteness, by the Mines and Public Works Depts. Road Boards are authorised to levy a general rate on property within their district not exceeding 1s. 6d. in the £ in any one year when annual value basis is adopted as basis of valuation, or 2d. in the £ when the unimproved capital value is adopted, with option to adopt a minimum value of 2s. 6d. on every one allotment.

The Road Boards are charged with the collection of Cart and Carriage, Camel, Dog and other licenses, also Executive Duties of "Cart and Carriage Act," "Dog Act" and "Width of Tyres Act," also "Parks and Reserves Act," so far as it deals with Reserves under their control, and the control of water supplies along roads which are principally constructed by Works Dept. and handed over to Local Boards who control same.

The whole of the Administration of the funds voted by Parliament for roads and bridges, as well as the "Roads Act" and "Width of Tyres Act" and other matters in connection with the Road Boards, is under the control of the Public Works Dept. (F. L. Stromach, Under Secretary). Road Boards Clerk: A. E. Sanderson; Auditors: H. J. Ash and G. D. E. Plunkett; Searcher, J. J. O'Neil.

The names of the various Road Boards throughout the State, as existing in November, together with names and addresses of Secretaries, are given herunder.
