BA1343/16	/1	Derek Keene	Halls Creek Shire - scenic view	Another typical rugged Kimberley scene, this one taken 25 kilometres from Halls Creek on the Duncan Road. I climbed well up into the hills to snap this shot and others, but I liked this one the best. There is still a lot of gold in these hills, as this area is not far from the Brockman where much of the early gold came from.	1997

This photo was snapped early in January and it is possible to see that the steel frame has been completed. It is expected that the whole project will be finished towards the end of the year. There are several pages of the station being built in this album	1997
BA1343/16	/21	Malcolm Edwards	Aerial view of the Shire Hall	The Shire has spent a great deal of money doing much needed renovations to the Shire Hall, so I thought it would be nice to include an aerial photo of the hall in this year's album. I was surprised how neat and tidy it looks from the air.	1997
BA1343/16	/22	Derek Keene	Children of Halls Creek.	There is no doubting the smiles on the faces of these three little girls who I snapped one day at the laundromat. The girls are Tennellie Nocketta, Desma Nocketta and Ramona Nocketta. Desma is a cousin to the other two sisters.	1997

BA1343/16	/23	Derek Keene	Children of Halls Creek.	Contrary to the title above these three children actually live in Derby, but their origins are well and truly entrenched in Halls Creek. BA1343/16	/24	Derek Keene	The McDonald family	The four McDonald sisters makes for a delightful family photo for this year's album. BA1343/16	/28	Derek Keene	Children of Yiyili Community	I snapped this sister/brother photo during one of my many visits to Yiyili Community during the year. The two children are: Samiha Cox, and her little brother Gawin Cox.	1997
BA1343/16	/29	Derek Keene		The names of these three children comes easy as they are my favourite kids, but how they are related is just a touch more difficult. The children are Rina Taylor, Corin Taylor, and Sharazz McDonald. Rina and Corin's mother is Sandra Phillips. Both Sandra and Sharazz have the same mother Shirley McDonald. So although Rina as a year older than Sharazz, Sharazz is her auntie.	1997

BA1343/16	/33	Malcolm Edwards	Moyle Crescent Residential Area	Several photos of this housing residential area have appeared in previous albums, the first in 1987 when the first houses were built there. This areial photo clearly shows that after almost ten years Moyle Crescent has alomost reached capacity. There may be three vacant blocks remaining.	1997
BA1343/16	/34	Malcolm Edwards	Halls Creek Airport	During 1996 word got around that the Halls Creek airport was going to become an all weather facility. New drainage was going in and one runway ws going to be laid with bitumen. With this in mind I sent Malcolm up to take some aerial photos of the runway before anything began. This is the best of those photos taken in June 1996. Work on the runway started in November.	1996
BA1343/16	/35	Malcolm Edwards	Halls Creek Airport	Despite being troubled by the persistent wet season the contractors were able to finish the new bituminised runway and associated works early in the new year. However it was later in the year before I was able to send Malcolm up to take some photos of the new runway. He did a great job in taking the photo from exactly the same place as the 1996 photo. This is very hard to do from a plane, but the two photos match perfectly.	1997

BA1343/16	/80	Derek Keene	The Old Police Station.	After 37 years service the end was in sight for the old police station, and all I can add here in regards to these photos is going, going GONE!!	1997
BA1343/16	/81	Lorie Dean	This photo of the old police station at old Halls Creek was taken in 1959, just as it's official life as an operational police station was coming to an edn. Built in 1918 of mud brick construction it had lasted for over 40 years in the harsh climate of the Kimberley. It was being replaced by a new police station at the nine mile as the new town of Halls Creek was referred to by the old timers. But what goes around comes around, and that new police station was now also being replaced. Photo taken by Mrs Lorie Dean Manager of the hostel for school children.		1959

BA1343/16	/83	Alan Archer	The old police station and police houses being built 1960.	Alan Archer, an officer with the Department of Meteorology snapped this photo of the new police station and the new police houses being built early in 1960. Bottom left of the photo the brand new concrete stumps of the police station can be seen and right in the centre of the photo are the stumps for the new house for the police officer in charge, or sergeant's residence. These buildings were all completed in 1960, and the police moved in from the old town later that year.	1960
BA1343/16	/84	Derek Keene	The old police station and police houses being pulled down 1997	In 1997, after 37 years, and after waiting months for the contractors to pull down the old sergeant's house the concrete stumps were finally exposed again to daylight, and I took this much awaited photo. The two photos on these pages and the next two pages is what history is all about.	1997

BA1343/16	/85	Malcolm Edwards	The Police Station complex 1993	Early in 1993 there was news going around that the town was going to get a new jail complex and some new police houses were going to get a new jail complex and some new police houses were going up because the old ones were full of asbestos. So once again I called on Malcolm to do a bit of aerial photography for me, with the whole police block of land firmly in mind. this photo shows the entire police block as it was in March 1993 before any building had began. The new jail did not turn up until October 1993, the new houses were built in 1994 and the new police station in 1996-1997. Even the new jail had to [be] relocated in 1997 to make way for the new station. The photo below was taken just four and a half years later. What a difference a few years make!!	1997
BA1343/16	/86	Malcolm Edwards	The Police Station complex 1997	When I asked Malcolm to take the annual aerial photos of the town I gave him the 1993 photo of the police station complex and asked him to take the 1997 photo from much the same position. I was hoping they would match up, just like the two airport runway photos seen earlier in this album. Comparing the two photos on these pages, Malcolm and the pilot did a great match-up. In the four and a half year interval between these two photos	1997
